Admission Brochure

Changsha, China

Changsha, the capital city of Hunan Province, is a beautiful and important city in central south China, occupying land of 11,800 sq. Km, with a population of 5.63 million. Endowed with abundant scenic attractions and historic spots for its long history, the modern Changsha is now famous nation-wide for its unique cuisine and prosper in media industry.

About International Education of CSUST

CSUST adheres to the open education thinking by establishing international exchange and cooperation with world partners. We have established exchange and cooperation with some 70 institutions of higher learning and research institutions from more than 20 countries or regions, including the United States of America, the United Kingdom, France, Canada, Russia, Hong Kong SAR, Macao SAR, and the Taiwan region, etc.

It is accredited to enroll and train international students under China Government Scholarship Programs. CSUST has three Confucius Institutes jointly operating with University of Montenegro, University of Liberia and University of Malaysia Sabah. Over the past few years, the university has sent more than 1000 registered students to study outside mainland China.

About International College of CSUST

Founded in June 2015, the International College of CSUST endeavours to cultivate international students, carry out international cooperation in education, provide training concerning foreign languages and affairs, and develop extensive international exchange and cooperation. It is a teaching college in line with international standards while with distinctive Chinese characteristics.

The College has office of joint-education program, office of international student affairs, center for learning and development including Department of Chinese International Education and office of international exchange and cooperation. It is the training base for international talents, window for open education, innovative platform for international exchange and cooperation.

Chinese-Foreign Cooperation in Running Schools

As one of the “troika” of Chinese higher education, Chinese-Foreign Cooperation in Running Schools has played a positive role in reforming our schooling system, broadening our ways for talent training, and promoting our opening-up in education.

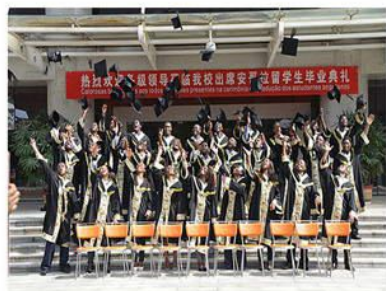

The International College relies on preponderant disciplines of CSUST, introduces and absorbs superior education resources abroad, and strictly follows Regulations on Co-running Schools with Foreign Countries and Measures for the Implementation of Regulations on Sino-foreign Cooperative Education, by doing so, it aims at cultivating foreign-oriented advanced talents with excellent ideological theory, international prospective, national emotion, cross-cultural communication ability, innovative spirit, solid foundation, strong ability and high quality.

International Students Cultivation

Since the middle of 1990s, Changsha University of Science and Technology (CSUST) has been qualified to enroll and cultivate international students. As “Hunan’s Advanced Unit Serving for Foreign Students, and Students from Hongkong, Macao and Taiwan”, CSUST has begun to enroll international students formally since 2007.

The international education of CSUST is qualified for undergraduates, postgraduates and doctoral candidates, its cultivating system is rela

tively flexible with academic education and continuing education. The former provides education for various international students as government scholarship students, university-enterprise cooperative students, interscholastic students and self-supporting students; the latter provides longshort-term Mandarin training. We have accumulated rich experience in university-enterprise cooperative education benefited from our mature university-enterprise cooperation system. Follow “The Belt and Road” national initiative and “New Engineering” planning of CSUST, the International College endeavours to cultivate professional and managerial foreign talents to be familiar with and friendly to China, and with high scientific and humanistic quality, solid academic foundation, prominent practical ability, acquainting with international laws and regulations in projects. Now our international students have come from over 48 countries, and the annual enrollment has been up to 300.
